## **ARTICLE VII- Evaluations**

### **1. PROFESSIONAL EMPLOYEE EVALUATION**

The purpose of the following evaluation activities at the College is to improve the performance of assigned responsibilities. Information concerning individual evaluations will be considered confidential and will be kept by the college for seven (7) years. Forms shall be developed and reviewed by a Faculty Evaluation Task Force convened by the Chief Academic Officer at least once every three (3) years. No other evaluation instrument will be promoted or used to evaluate faculty unless expressly permitted by the Master Agreement. (\*See list of specific forms in the appendix.)

Professional employees will be evaluated on the following schedule:

For the first 3 years, annual evaluations will consist of a self-evaluation, a department chair evaluation, a CAO evaluation or designee evaluation, student evaluations in all classes both semesters, and a formal classroom observation in the Fall and Spring semesters.

For the next three years (years 4-6), evaluations will be done annually in either the fall or spring semester. Evaluations will consist of a self-evaluation, a department chair evaluation, a CAO or designee evaluation, a student evaluation for each different course taught for that academic year, and a formal classroom observation in either the Fall or Spring semesters.

Beyond six years, a formal evaluation will be done once every three years. Evaluations will consist of a self-evaluation, a department chair evaluation, a CAO or designee evaluation, a student evaluation for each different course taught for that academic year, and a formal classroom observation in either the Fall or Spring semester.

Tenured faculty not under formal evaluation must have student evaluations for two classes completed during each academic year; professional employees may choose to have additional classes evaluated.

Professional Employees will be evaluated for the period of time beginning with the latest prior evaluation. During the evaluation period, the formal classroom observation of the Professional Employee will be conducted by the Chief Academic Officer (or designee), or department chairperson; the CAO will contact professional employees at least five days in advance of the possible observation dates. During the first six years of employment, no more than two (2) consecutive formal observations will be conducted by the same entity. The College's Chief Academic Officer or designee and Department Chair will review evaluations with the Professional Employee prior to the end of the last semester of the formal evaluation period. A Faculty Evaluation Report summary will be received by the Professional Employee at the meeting with the Chief Academic Officer or designee.

Faculty will receive notice of student evaluations at least five days prior to them being made available to students. Faculty may select the classes to be evaluated based on the criteria above.

## 2. ADMINISTRATIVE REVIEW AND PERFORMANCE IMPROVEMENT OF PROFESSIONAL EMPLOYEES

The College recognizes and accepts the responsibility to attempt to improve the performance of Professional Employees prior to recommending disciplinary action to the Board. In fulfilling this responsibility, the following Performance Improvement and Administrative Review procedures will be employed, unless there is clear evidence of a flagrant violation of Board policy or Kansas law.

- a. When it is determined that there are areas of concern with the Professional Employee's performance that need addressed, a Performance Improvement Plan outlining expectations and goals will be developed in conjunction with the Department Chairperson and CAO. A timeline for improvement will be included and shared with the Professional Employee. If there is not significant improvement to indicate that the expectations and goals will be met by the Professional Employee, then they may be non-renewed if non-tenured or placed on Administrative Review status.
- b. When it has been determined by the Administration that a Professional Employee who is under continuing contract statute, is to be placed on Administrative Review status, the President will convene a conference consisting of the Professional Employee, a CEA Representative or other advocate of his or her choice if requested by the Professional Employee, President, Chief Academic Officer, Academic Associate Vice President, and Department Chairperson for the purpose of outlining perceived deficiencies and

determining a course of action to correct the problem. A written record of this conference will be prepared for the Professional Employee's personnel file.

- c. From this point, until such time as the Professional Employee is no longer on Administrative Review status, regular evaluation procedures for improvement of instruction will be replaced by procedures for administrative review.
- d. The Professional Employee involved will be evaluated based on the items and timeline listed in the administrative review documentation. The evaluation may include the following items if applicable to the review plan.
  - 1. The Professional Employee will be evaluated by all of his/her students each semester using the standard or modified tool.
  - 2. The Professional Employee will be evaluated each year by (1) the Chief Academic Officer and/or Academic Administrator, (2) Department Chairperson, and (3) Self using the standard or modified tool.
  - 3. The results of all such evaluation will be made available to the Professional Employee involved in a timely fashion.
- e. In March of the year following the initial conference, another conference will convene for the purpose of assessing any improvements and deficiencies noted. A summary of this conference, along with the administrative disposition, will be entered on the same record established at the original conference (see b).
- f. The special evaluation procedure shall continue until such time as the Professional Employee is removed from Administrative Review status.
