

I grant the ACES program permission to publish and share information written in my reflection logs, letters of recommendation and evaluations. I also grant permission for my photo to be published and reproduced. This information may be publicized to promote the ACES program at Cowley.

In my service work, I understand that those I serve are trusting that I will keep all names and conversations confidential, in that I will not release last names or identifying characteristics. I will do my best not to compromise those that I serve.

It is my responsibility to accept a placement and be accountable for my behavior at my service site. I have been honest in all my application processes.
