**275.00 - FINAL EXAMINATIONS**

A final examination is required for each academic credit course. Examinations are given according to a published final exam schedule. Students must take such examinations at the scheduled time. Permission to take final examinations at another time will be granted only for compelling reasons, not including convenience of the student. Such permission, if granted, must be secured from the Vice President of Academic Affairs prior to the time of the final examination in question. Failure to appear for a final examination may result in loss of credit for the course.
