406.00 – COWLEY COLLEGE STUDENT SENATE

The Cowley College Student Senate (CCSS) is established to provide the student body with an officially recognized voice in the governance of the College. The CCSS participates in the development of student policies and programs under guidance of a sponsor appointed by the administration. CCSS expends certain student funds, supervises student social programs, recommends for appointment student members to student-faculty committees and councils, and charters other student organizations.

The CCSS is composed of student officers whom are elected at large from the student body and of representatives from active clubs, organizations and other student groups on campus. CCSS is governed by the constitution and by-laws of their organization.
