Controlling Purpose:

Music is an essential part of our social and cultural fabric. Performance-centered classes allow each student to improve their skills and talents as musicians and to develop their levels of expression.

Learner Outcomes:

Upon completion of the course, the student will:

- Further develop vocal technique
- Improve their understanding of the basics of music rehearsal and performance.
- Develop and understanding of their role as a performer in an ensemble setting.

Units Outcomes and Clock Hours of Instruction for Core Curriculum:

The following outline defines the minimum core content not including the final examination period. Instructors may add other material as time allows.

Evaluation Key:

- A = All major and minor goals have been achieved and the achievement level is considerably above the minimum required for doing more advanced work in the same field.
- B = All major goals have been achieved, but the student has failed to achieve some of the less important goals. However, the student has progressed to the point where the goals of work at the next level can be easily achieved.
- C = All major goals have been achieved, but many of the minor goals have not been achieved. In this grade range, the minimum level of proficiency represents a person who has achieved the major goals to the minimum amount of preparation necessary for taking more advanced work in the same field, but without any major handicap of inadequacy in his background.
- D = A few of the major goals have been achieved, but the student's achievement is so limited that he is not well prepared to work at a more advanced level in the same field.
