

## Cowley College Degree Grid

The Instructional Technology and Design Associate of Arts degree is designed for students seeking to become practitioners in the integration of technology in the classroom or corporate workplace. With technology playing an increasingly important role in all aspects of business, students will discover ways to teach others how to effectively implement technology into everyday practices to enhance learning and productivity. Students completing the degree can consider training positions within corporate or educational settings. Students are expected to complete the minimum course work required for the AA degree and are encouraged to consider the course work options in one or more of the recommended concentrations to ensure appropriate transfer into a bachelor degree program of study.
