

Launch Your Career in Milling NOW!

MILLING TECHNICIAN PROGRAM

The Opportunity:

Cowley College and the International Association of Operative Millers have partnered to develop an online program to train technicians working in flour mills. This innovative approach is designed to help meet industry demand, and connects students to career opportunities after completing just two semesters and an internship.

The Benefits:

- Career in a high-demand, recession-proof field
- Starting salaries can exceed \$45,000
- Guaranteed internship opportunity in a live milling environment
- Potential for full-time employment upon program completion
- Tailored curriculum developed by top industry professionals
- Low tuition with the ability to use financial aid for those who qualify
- Convenient online coursework coupled with hands-on learning experiences

The Requirements:

- Be at least 18 years old at the time of internship
- Earn a High School Diploma or GED prior to employment
- Satisfy all employment requirements at selected internship site
